

Enjoy a bit of karma on your wedding day with a mellow motor

January 25, 2011, 09:13

Suzie travelled in one of the original London-based Karma Kars when she married in the capital and loved it so much she decided to bring the idea to Gloucestershire.

She reached an agreement with the owner of the London firm to use the name and bought one of only four Indian Ambassador cars available here.

“The cars are only ten years old and based on the Morris Oxford from the 1950s and 60s which are still being produced in India on the original presses, said Suzie.

“I came to Cheltenham three years ago and could not get a part-time job. That is when I came up with the idea.”

Ralph Feinnes, Boy George and Jason Donovan have all used the original company’s Karma Kar.

Suzie said: “It gave my wedding day a special and quirky twist and really was a show-stopping, jaw-dropping arrival. I am really excited to bring Karma Kars to the Cotswolds.

“Everyone who sees the car absolutely loves it.”
