Ambassador car ranked the best taxi in the world, The Economic Times, July 21

NEW DELHI: It may have lost out to the more modern competitors from Maruti Suzuki, Hyundai, Toyota and Honda but the good old Ambassador car, that once ruled the roost in India, has just been voted as the world's best taxi by global automotive programme Top Gear.

In a show, which is being aired on the BBC, Top Gear's executive director Richard Hammond organized a world taxi shootout in which Ambassador emerged a winner, beating competitors from all over the globe.
