

## Mitsubishi India launches Pajero Sport Anniversary Edition, Oncars, July 17

Reverse parking camera and touch-screen GPS enabled infotainment system to make it to the new model.

It's been a year since the time Mitsubishi launched the Pajero Sport and now the Japanese carmaker's Indian wing is in a mood to celebrate, so here's the Pajero Sport Anniversary edition.

It comes with a 2-DIN DVD Player which can double up as the display for the rear parking camera and navigation. To differentiate the vehicle from its regular variants, the special edition comes with the 'Anniversary Edition' emblem. Body coloured spoiler, bumpers, mud guards and fog-lamp bezels and the 'Super Select 4WD' system add to the list.

The Pajero Sport draws power from a 2.5-litre diesel engine, good enough to produce 180PS of power and mind-numbing 400Nm of torque. Mitsubishi India is now focussing on making presence in the SUV market and with products like Pajero Sport, it can bring back the charm and numbers too!

Mr. Uttam Bose, MD and CEO, Hindustan Motors said, "In our endeavour to give maximum value to customers we have incorporated new features based on their feedback. We are confident that the additions will contribute to customer delight and consolidate Pajero Sport's position as a true SUV which matches the needs of city driving as well. Pajero Sport buyers are bound to feel the difference. The Anniversary Edition will enable the buyers to celebrate the legacy with style."
