

Mitsubishi Lancer Evo X

Nov 18 2010 11:26PM

The Japanese car manufacturer, which has a joint venture with the Indian car manufacturer Hindustan Motors have exhibited its two litre turbo charged petrol car Evo X at the Autocar Performance Show in Mumbai. The vehicle generates 291 bhp of power with 0-100 kilometers per hour mark coming up in just six seconds.

What is more, Evo X boasts of giving a top speed of 180 kilometers per hour. While talking about the price, well people in the know say it should be around Rs 49.95 lakh (Ex-Showroom, Delhi). Other details are awaited. Just watch this column, as we get to know some information before the vehicle is rolled out in the country, the next moment you will get to know.
