

## **Mitsubishi To Introduce New Pajero Before March End, Bulletin, December 23**

Hindustan Motors and Mitsubishi HV has decided to roll out novel series of vehicles by the coming year.

As per reports, Mitsubishi and HM had pulled-out of the 2012 Auto Expo.

Mitsubishi had initially proposed to launch the 2012 Pajero at the Auto Expo in the national capital, but the company plans were derailed owing to disturbance stimulated by the Thailand floods.

The firm has now stated that the novel Pajero will be introduced during the initial quarter of 2012, and will probably by February 2012.

HM and Mitsubishi coalition also decide to append novel to its range of vehicles by the coming year and one passenger option is already at ARAI for authorization.

The company will also roll out a novel commercial vehicle by the coming quarter and is projecting a major spike in sales.

Pajero with its genuine off-roading potentialities has always been a top brand in the eyes of Indian client, but company lost the majority of its sales to Ford Endeavour and Toyota Fortuner primarily owing to service and maintenance matters of HM products.

With the accurate cost and guarantee of apt service, Mitsubishi might just have a chance redeem itself in this nation.
